

Amendments to the Specification:

Please insert the following paragraph before the heading

"Background of the Invention" on page 1:

"The present application is a National Stage Filing of PCT Application No. PCT/KR00/01028 filed September 14, 2000 which claims priority to Korean Patent Application No. 1999-0039735 filed on September 16, 1999."

Please replace the Abstract with the following amended Abstract:

"A health management system including a health management device, a database server, and a network. The health management device includes an input device to input basic data and a controller to analyze the basic data and assess the desired body of data on the basis of the basic data. A database stores the basic data, software, and data required for the process to be performed by the controller and an output device outputs the result of the process performed by the controller. In addition, the data output is transmitted from the health management device to the database server via a network. The database server stores, analyzes, and assesses the data and then transmits it to the device and professional doctors via the network."
